Takeshita Signals Activist Role Abroad

Page 2

By Patrick L. Smith International Herald Tribune TOKYO — Although Prime Minister Noboru Takeshita's first speech to the Japanese parliament on Friday focused on domestic issues, many analysts also viewed it as a strong indication of the new Japanese leader's intention to take an activist approach to forcign affairs.

The analysts also said that in linking political and economic reforms at home to the nation's relations abroad, Mr. Takeshita was signaling Western allies and Asian neighbors that he would continue the outward-looking policies of his predecessor, Yasu-hiro Nakasone. But while be intended to reas-

sure other nations, the prime minister's address was also a reminder that managing Japan's relations with the rest of the world was likely to prove his most for-

midable challenge. Mr. Takeshita, who took office earlier this month, has been widely seen as a domestically oriented politician who holds the traditional values of the Japanese village in highest esteem. Accordingly, the prime minis-

ter has sought to dispei the im-

pression that he lacks the experience and global awareness of Mr. to self-defense.

Nakasone His speech Friday, in which he called on the Japanese to "harmonize" with the rest of the world, was viewed as part of this effort. Mr. Takeshita's primary task, policy experts say, will be to rec-

Pelting by Crowd Stops Roh's Speech

KWANGJU, South Korea (Renters) — Crowds throwing bottles, rocks, eggs, and tear-gas canisters forced Roh Tae Woo, the governing party's candidate for president, to abandon on Stmday a campaign speech in Kwangin, the power base of the opposition candidate Kim Dae

Jung Tens of thousands of anti-government protesters chanted "Kim Dae Jung Kim Dae Jung," and some burned Mr. Roh's campaign posters and threw the projectiles, injuring several people, as Mr. Roh arrived for a rally at the Kwangin rairoad station and began his speech. He was not injured. injured

After be left, protesters marched through the streets chanting, "Let's execute the Kwangju butchers," a reference to the army's suppression sion in 1980 of a civil insurrection in Kwangju, in which more than 200 civilians were killed. Witnesses to the Sunday protest and that not police tear gassed the crowd and made dozens of arrests.

Mozambique Says It Killed 100 Rebels MAPUTO, Mozambique (AP) — The army overran a major guerrilla base near the South African border, killing 100 rebels and capturing eight, the national news agency reported Saunday. The agency quoted Major Paulino Macaringue, the operation com-mander, as saying the army "stormed the base" Wednesday after two days of fierce fighting with guerrillas of the Mozambique National Resistance movement. Resistance movement.

Tamil Rebels Attack Crowd, Killing 5

COLOMBO, Sri Lanka (AP) — Tamil rebels threw hand grenades in a crowd of fellow Tamils waiting for food packages handed out by Indian soldiers at Chavakachcheri, near Jaffna in northern Sri Lanka, killing five persons, Indian diplomats said.

Separately, on the eastern part of the island, Indian troops backed by helicopter gunships and armored vehicles searched for Tamil rebels in at least four fishing villages near the Batticaloa lagoon, 140 miles (225 kilometers) east of Colombo, the police and residents said Saturday.

Hundreds of people filed and reported hearing explosions and continuo ons ganfire, according to the police and civic leaders in Batticaloa.

Titan Orbits Secret Military Satellite

CAPE CANAVERAL, Florida (AP) - A secret military satellite that a civilian expert said would provide instant warning of an enemy missile attack has been sent into orbit by a Titan-34D rocket. It was the second straight success for the Titan after being grounded for 18 months following earlier failures and the explosion of the space shuttle Challeng-

Although the payload orbited Saturday was not identified by the air force, John E. Pike, a space policy expert for the Federation of American Scientists, said it was one of a series of U.S. satellites that have been launched during the last decade to provide early warning of a hostile missile attack.

OPINION

The Hunt Is On for the Real George Bush

WASHINGTON -- Vice Presi-dent George Bush, who in-spires jokes on television and satire in sophisticated comic strips, this world War II plucked him from a year is also stimulating political loving, close-knit family where he and the others lived "snug as larvae journalists to produce some of the best biographical essays ever done about a presidential candidate.

Perhaps the most remarkable profile, in its depth, was written by Barry Bearak, Miami bureau chief of the Los Angeles Times, and on Nov. 22 occupied more than four full pages in that newspaper. A month earlier, Margaret Garrard Warner wrote an insightful cover story on Mr. Bush for Newsweck magazine. Back in October 1986, Walt Harrington broke much of the Bush trail in a profile for The Washington Post Magazine, and there

have been other good ones as well. These character studies reject the easy Bush caricature. "George Bush is no wimp," Mr. Berrak writes, "certainly not in any sense of cow-ardice. On the contrary, he is astonishingly resilient and persevering. Nor has be been untrue to his own sense of political ethics," to the val-

sense of pointcai ernes, to the va-ues of his upbringing. That rearing, in the security of wealth and social position embodied in the landmarks of his formative in the landmarks of his formative years, Greenwich, Kennebunkport, Andover and Yale, is light-years re-moved from the life experiences of most people in the nation he seeks to lead, it gives him what Mr. Harring-ton calls an "Old Worldly" air. "Born of this century, George Bush embodies much from the last," Mr. Bearch writes in his element con-Bearak writes in his cloquent con-cluding paragraph. "He is a man of so much hesitance, yet a man always forging ahead — a man steadied by

that of his dowager mother, Doro-thy, still formidably on the scene successful, but never boastful. Be By David S. Broder

in a cocoon," Mr. Bearak says. After the war, he and his wife, Barbara, took off for Texas but spiritually considerate. But what else? On what never left home. Essentially uninterissues of principle would a President Bush stake, or even sacrifice, his pop-ularity? His record gives no real clues, so the question must be ested in abstract ideas or theories, Mr. Bush has "never been immutably tied to the great currents of his time," Mr. Harrington observes. He also has been singularly free of the self-doubt which breeds skeptical pressed in the coming campaign.

Ray Walker, a psychiatrist-cousin with no special fondness for Mr. Bush, and who appears memorably in Mr. Bearak's profile, suggests that reflection or introspection. To search for a core of philosophy or belief in such a man, all three conclude, is fruitless. The point of the political quest for Mr. Bush is the quest itself, Mr. Bush would strive to please pub-be opinion but, equally, to gain the approval of his chosen political adhonorably pursued. Public service is for him, as for his financier/senator visers. That means that close attention must be paid not only to the father, as much an obligation as competence and character of those advisers but to the range of their good manners. He has serenely survived many humiliations in a long political career, sustained by the af-fection he evokes without effort not only from family members but also from the hundreds, even thousands, of friends who warm themselves in his benign personality.

The profiles make clear that Mr. Bush has spent much of his life pleas-ing others; he likes to he liked. Ron-ald Reagan is only the latest of many strong figures whose views he has internalized effortlessly as his own. Through six decades of life, he has the profilers depict at the heart of his extraordinary life. It is as important that he know us as that we know him. The Washington Post.

satisfied his ambition by becoming president and no longer had anyone to whom he must defer. He would be civil, modest and

Throw Out the Case Against Nuclear Disarmament

N EW YORK - The start toward real dis-N armament was made at the summit meeting in Reykjavik in October last year when Ronald Reagan and Mikhail Gorbachev discussed ac-cepting 1996 as the target date for the abolition of all nuclear arms. There has been speculation about their motives. One possible explanation is not given enough attention: that they might be uinely frightened by the prospect of a nuclear

war, no matter how remote the chance. Meanwhile, many proponents of the nuclear arms race maintain their line.

Does deterrence work? Its adherents believe that it is the existence of nuclear weapons which has preserved the peace between the great powers since 1945. That cannot be proved, but there are some strong arguments in favor. Peace would perhaps have been preserved in any event, but that would be even harder to prove. The central argument of the supporters of nuclear weapons can therefore possibly be conceded as correct.

By Bernt Carlsson

explosives, all linked to a central push-button control, throughout a city. If a crime occurred anywhere, the whole city would be blown up.

When 40 days without crime had passed, it might be taken as proof that crime had disappeared. If later the chief had only the unerviable choice between blowing up the city or letting everyone see that the determence mechanism was a fake, the police might be forced at great expense to revert to conventional patrolling. A first step might be to modify the system to one of flexible response: blowing up only those parts of the city in which crime occurred. It has been argued that the abolition of medium-range missiles would pull several rungs from the

At the global level, given the was tand boundaries of the Soviet Union, the alkged Soviet conventional superiority is somewhat mythical. Bot in view of the considerable current edge in numbers in Europe, it is astonishing that a populous and advanced entity ladder of possible responses to aggression. Medium-range missiles are a more credible deterrent than such as Western Europe should not be able to match long-range strategic missiles, it is said, and fewer missiles means fewer options. It is somehow thought that the Soviet Union would be more willing to accept the destruction of Moscow by a mediumrange missile launched from Western Europe than by a strategic missile from North America.

disarmament is that it would upset the military balance in Europe, where the Warsaw Pact has

such superiority in conventional weapons. Soviet conventional superiority was built up during the 1945-1950 era of U.S. nuclear monopo-

ly. Western Europe was to be held hostage by the threat of invasion as a deterrent against the U.S. nuclear superiority. Subsequently the Soviet con-

ventional superiority was given as the reason for the dependence of the West on nuclear weapons as

a deterrence against the perceived Soviet conven-tional threat. A vicious circle was established.

advisers but to the range of their experience and the breadth and di-versity of their backgrounds. Cam-paigning to Republican audiences and consulting with world leaders, which is mostly what Mr. Bush has done for the last third of his life, does not guarantee a clear grasp of the reality of people's lives.

ft might not be a bad idea to ask Mr. Bush, at every opportunity, questions designed to test how much of that outside reality has penetrated the protective layers of personal serenity and social invincibility that

ing across-the-board cuts with no discretion.

For weeks that harsh law looked like a shark

in the water, to he avoided at all costs. It

ended up looking more like a lifeboat. With-

out its deadlines, the negotiators might well

have dithered on indefinitely. Second, note that President Carter at

least tried. He was willing to ask for pain,

least tried. He was willing to ask for pain, discipline and a 10-cent gas tax. What is President Reagan willing to ask for? Noth-ing. He was willing, grudgingly at that, to bargain with Congress. And now, even after agreeing to spending cuts and revenue in-creases, he brandishes veto threats. The agreed-on package is not deficit re-duction, only an outline of proposals that could bring reductions of the supposed \$30

could bring reductions, of the supposed \$30

billion in 1988 and \$46 billion in 1989. Those

figures include dubious, fuzzy and one-time amounts. The negotiators, acting together, could have made genuinely constructive re-

ductions, like restraining Social Security in-creases for the well-to-do. Having failed to

do so creates pressure on programs that literally put food in the mouths of the poor. Congress and the administration could

yet flesh out their outline into a real pro-

gram, recognizing that all must share the

burden. So far, with the president still so

passive and House Democrats still so skit-tish. America's leaders are breathing new,

- THE NEW YORK TIMES.

plural life into Mush from the Wimps.

This Monday, Congress and the administration start trying to keep their timid promise to cut the federal budget deficit by a token \$30 billion. Just how timid and just how token can be gauged by comparing their promise with the economic plan that Jimmy Carter proposed in his last year in office. Here is how the lead story in The Times described it on March 15, 1980:

President Carter, declaring that the nation's soaring inflation rote required a prosource of the second se

raising gasoline prices 10 cents a gallon. Jimmy Carter was fighting double-digit inflation, and all this seemed little and late. An editorial in The Boston Globe first ap-peared with a joke headline: "Mush From the Wimp." That was guickly revised to "All Must Share the Burden." The country has, since then, learned more about mush and wimps, and burdens. Mr. Carter didn't get his spending cut, even with a Democrat-ic Congress. Still, two things stand out in a then-and-now comparison.

First, note that it would then have taken only \$13 billion in cuts to balance the budget. Now the gap is 10 times higher. If Congress comes up with all the supposed \$30 billion reduction, the 1988 deficit will still run more than \$130 billion. And even this token reduction has been promised only be-

So Who's Protectionist?

The Massachusetts Institute of Technology went shopping for a supercomputer this year, solicited bids and found that the two most attractive were for Japanese-made machines. Before it could conclude a deal, though, it got a letter from Bruce Smart, the undersecretary of commerce for international trade, warning that the Japanese products might be subject to anti-dumping legislation and, thus, added duties on the price. MIT got the point, and so did the companies, which withdrew their bids. MIT has now put its supercomputer plans temporarily on hold.

Did the low Japanese offer constitute "damping?" In fact, it is widespread practice for computer companies in America and abroad to offer attractive start-up deals to universities. The benefits of training a generation of academic scientists on one's own system, rather than ou a competitor's, are obvious. Selling or leasing a supercomputer to MIT would not only put a company's system on display, it would also mean a generation's worth of software written for that system by some of the world's best scientific minds. The Commerce Department is worried lest the U.S. supercomputer industry lose its technological edge over Japan — an edge that lies more in software than in machine power — in a worldwide supercomputer market that is expected to grow enormously. That the department would lean a little on MIT to buy American is therefore not too surprising. It is, however, a little embarrassing. Just

last summer Washington concluded a tough agreement in which the Japanese reluctantly opened their government procurement pro-

- which in Japan, unlike America, CCSS includes the universities - to allow American supercomputers to compete on a fair basis. At the time, the United States could plausibly argue that its procurement process followed the same rules, since the military is required by statute to pick the cheapest bid. Recently, though, when the Defense Department was found to have adhered to that policy and bought Japanese machines for budgetary reasons, people on the Hill kicked up a fuss, causing defense officials to declare their procedure to be "under review,"

There are some respects in which the U.S. companies that make only supercomputers are at a disadvantage when bidding against the broader-based Japanese companies, which can take a loss on one product to break into a market. Rather than confronting such questions, supercomputer companies have let the government apply buy-American pressure on their behalf. Free market forces are supposed to induce com-panies in such a situation to explore ways of competing more effectively, whether by grouping into consortia, as some high-tech manufacturers are experimentally doing, or by making their products more attractive abroad, as IBM, for example, has successfully done. By contrast, depriving research universities of the equipment they them-selves have determined represents the right ratio of price to capability is a peculiar way of ensuring continued technological dominance. It is equally bad for America's repu-

tation for the kind of fair play it demands from its trading competitors. - THE WASHINGTON POST.

His arge is to accommodate, his great gift to blend in. And it is the daradest thing, for what a singular life! Chapter by chapter, it is epic stuff. Top athlete. War hero, Yale man, Wildcatter, Millionaire. Off into poli-

ability, has lived what others merely dream. Where many politicians have to manufacture and reinvent themselves, Mr. Bush is the genuine article.

HE quintessential team player, George Bush is only played one in the movies. He was a daring fighter indistinguishable from the team. By temperament, pilot in the Pacific while Reagan flew simulated missions on the back lots of Culver City.

Mr. Bush has been married to the same woman for 42 years and has five children who adore him; Mr. Reagan is divorced, with children he rarely sees. Mr. Bush is a is divorced, with children he rarely sees. Mr. Bush is a devoted churchgoer; Mr. Reagan seldom feels the need. Yet it is Mr. Reagan who so naturally marches in step to the cadences of God, family and country; who is the courageous sheriff busting through the saloon doors to meet a dare. And it is George Herbert Walker Bush, seven years the faithful sidekick, who is maligned for merely tagging along — George Bush who is revited from the left and the right as a lap dog, a preppy and a wimp. — Barry Bearak in the Los Angeles Times.

Constituencies, Wake Up

The cliche has it that the State Department has no domestic constituency and is therefore vulnerable to ruinous congressional budgetary cuts. But the department does have a constituency, although it is amorphous and diffuse. Every American traveler abroad is a constituent; so is every travel agent and every international airline. All who do business abroad are constitucuts; so is everyone who is involved in telecommunications, or foreign imports, sales or royalties. So is every American citizen who thinks of foreign policy as the shield of the republic. All these constituencies should be roaring with outrage, espe-cially at a Congress whose Democratic leaders miss no opportunity to fault President Reagan for neglecting diplomacy.

For starters there is Japan, where the rising yen has tempted thousands to visit America, a fine way to reduce the U.S. trade deficit. For lack of personnel, the lines at U.S. consular offices in Tokyo stretch for blocks. Letters and articles in the Japanese press wonder whether the United States is

motivated by racial discrimination. And it is not just in Japan. Thirteen consulates are marked for closing as a result of new cuts. State must absorb an \$84 million short-

fall imposed by Congress - this after brutal cuts in two successive budgets. In that time, the department has also lost millions in buying power because of the 40 percent decline in the dollar's value.

Congressional slashers have an answer. They claim that State is miscrably mismanaged and that its projected cut of 1,270 jobs is deliberately meant to stir alarm. But this claim ignores Congress's own micromanage ment of State's budget; it imposes priorities ment for "needlessly" closing consulates.

It's a shame. And a folly, since a big power's first line of defense is its diplomatic agents. Americans who rely on overseas offices of the State Department ought to raise their voices against a know-nothing assault by a Democratic Congress. -THE NEW YORK TIMES.

Turkey Sooner or Later

Turkey is an issue that the whole of the European Community wishes would just go away. It won't, and [this Sunday's] election won't make it any the more likely that it will. The election is there both to confirm Prime Minister Turgut Ozal in power and to legitimize Turkey's progress to democracy and hence to eventual membership of the EC.

It isn't democracy, of course, or not yet democracy as the rest of Europe might understand it. The timing of the election, the attempts to ban opponents, the continued imprisonment and torture of opponents of the regime are all there to buttress the case of those who would deny Turkey's place as part of Western Europe. But that is the very last reason for openly

or for pouring scorn on its efforts to democracy. Those efforts are real. Turkey deserves, on grounds of practical politics as much as idealism, to he drawn more closely into Western Europe --- all the more so as the agreement on intermediate nuclear forces reemphasizes conventional defense and the specter of American disengagement. In bringing Greece into the EC the other

spurning Turkey's request for membership

members have made it difficult to refuse Turkey but impossible to accept her, given Greece's right of veto. Better to accept Turkish membership as a long-term aim but a short-term improbability. But then it becomes all the more essential to the Turkey into economic arrangements and to encourage her along the civil path she is now pursuing.

A fallacy remains the assumption that what has happened before will persist indefinitely. It ignores the many risks involved in the nuclear arms race. In a way it is like playing Russian roulette. Instead of the world being safer the longer it has been at peace, it might be the other way round. The past success of deterrence cannot determine future success. Deterrence cannot exclude the risk of accidental

war. That risk may be very small in a statistical sense, but it is greater than zero and is increasing. If the policy of deterrence were applied to crimefighting, one could imagine a police chief planting

This ignores a basic maxim of Clausewitz that in war the will is directed at an animate object that reacts. It can safely be assumed that if a missile is heading for Moscow, whether strategic or mediumrange, the remaining minutes of Washington D.C. and command structures function. Another argument advanced against nuclear International Herald Tribune.

The Drift to Denuclearization Is Well Under Way

WASHINGTON — For once, the importance of an arms con-trol deal is not being overstated. Last week's INF agreement is important for a much greater reason than the withdrawal of a few hundred warheads. It marks, I believe, the beginning of a "post-nuclear" cra, whose different strategic dangers are being nored as the two sides argue over the details of verification.

Thousands of miclear weapons may remain in this post-nuclear world, but they will no longer provide a realistic option for defending Europe, nor off-set the weakness of U.S. conventional forces elsewhere in the world. For this reason, Americans may have reason to regret the passing of the nuclear era, for all its obvious dangers.

The decline in the importance of nuclear weapons does not stem from the development of other, more pow-erful weapons. Nor does it reflect the recent growth in Soviet nuclear capabilities. Rather, it is a continuation of trends that have been evident for 20 years, ever since NATO replaced the strategy of massive retaliation with one of flexible response. This was the first great reduction in the role of ar weapons within the U.S.-Sovi-**NUC** et military balance. Nuclear weapons were now to he kept in reserve in the event of imminent non-nuclear defeat. Interestingly enough, flexible response was imposed on NATO at the very time when the superiority of U.S. intercontinental nuclear forces was at its peak, by every criterion of measurement. The Polaris forces of 41 submarines with 656 ballistic missiles had just been completed and America possessed a force of 1,000 Minuteman missiles as against far fewer and much inferior Soviet sea- and land-based ballistic missiles. The U.S. advantage in manned bombers was even greater. If the balance in the respective destructive capacities had been the determining factor, 1967 should have witnessed a reaffirmation of massive retaliation rather than its repudiation. U.S. and NATO strategies have

not changed officially in the past 20 years. But the role of nuclear weapons has relentlessly declined, and spending for non-nuclear forces has increased sharply. Why?

Nothing has changed in the physical realm, but everything has changed be-cause mentalities have changed. Pub-

This is the first of two articles. he perceptions of the threat inherent in tion mark. But the trend is clear

have gradually given way to a less threatening geopolitical conception — in which such and such Soviet forces

The drift to de facto denuclearization has exposed the political implansibility of the various U.S. nuclear guarantees, which are intended to dissuade foes from conventional attack by threatening an American nuclear response. Consider some examples:

by nuclear counterattacks against non-nuclear Chinese artillery barrages under joint U.S.-Republic of China defense plans. At present, the notion that America would use nuclear weapons to defend Quemoy and Matsa seems absurd, but it was not so for the U.S. officials who approved those plans in the 1950s — although they might now look back in disbelief at their thoughts of those days. • The denuclearization drift proba-

bly has progressed far enough to rule out the use of nuclear weapons for the defense of South Korea against a nonnuclear invasion from the north. That was still seen as a realistic contingency in the 1960s, and a definite reliance on nuclear weapons was not eliminated from U.S.-Republic of Korea defense plans until well into the 1970s. Japan is still to he defended by

nuclear weapons if its non-nuclear defense fails. Public discourse on the "nuclear umbrella" mostly refers to the dissuasion of a Soviet nuclear attack. But that may not be the real threat, given the acute vulnerability of Hokkaido, the northernmost Japanese island, to a non-nuclear invasion from nearby Soviet territory. It is hard to believe that a U.S. president would authorize nuclear attacks against Soviet forces in response to a non-nuclear

÷λ

invasion of Hokkaido, or that such attacks would be acceptable to American public and congressional opinion. gardless of the consequences. · Europe remains the great ques-

By Edward N. Luttwak

Soviet military power as unlimited in enough. There, as everywhere else, the scope (a threat to "our way of life") political plausibility of extended deterrence against conventional threats is diminishing. The apparent U.S. readiness to use nuclear weapons against a non-nuclear invasion was it will be in the future.

The best index of denuclearization at any one time is the size, quality and cost of the non-nuclear armed forces that the United States and the European members of the Atlantic alli-ance see fit to maintain. In the 1950s, the various potential fronts northern Norway, in Italy and in eastern Turkey, as well as the central front in Germany from the Baltic to the Anstrian border --- were held only by scattered units to be deployed in long, thin lines. They provided a very poor defense against concentrated armored thrusts, but they were ideal to trigger the nuclear bombardment of the Soviet Union, which was the envisaged response to invasion at that time. Since then, NATO ground forces have grown in size and arma-ment and their logistic capacity for ustained combat has increased.

The very fragility of the alliance defenses of the 1950s added to the credibility of massive retaliation. Simi-larly, the continuing increase in the capacity and sustainability of NATO combat capabilities not only signals but also promotes the continu ing advance of denuclearization. That is because the "robust" defenses that the European allies are forever being asked to provide would merely slow an invasion long enough to allow European partiaments and the U.S. Congress time to debate whether nuclear weapons should be used.

1912: New Balkan State That debate would produce only one answer: the exclusion of any use PARIS - M. Poincaré, the French premier; Marchese di San Giuliano,

By Parrick E. Tyler Washington Post Service MANAMA, Bahrain — An un-publicized offer by Kuwait to allow the U.S. Navy to set up a big occan-going barge as a floating naval base inside Kuwait territorial waters has been purped down in a surneise do NN - Will Mithal G heves it down at the Wate it as a wounded have s problems at home and so will Rotal k a senior West Germand y try to push each other for been turned down in a surprise decision by the Reagan administration, according to an official in the The U.S. military command in the Gulf - which has made highly

ing fortresses aimed at countering Iranian mine threats and speedboat attacks against U.S.-protected shipping — is known to have want-ed such a facility inside Kuwaiti waters. Last month, Rear Admiral Harold J. Bernsen, commander of the Middle East Force, told West-ern officiale that a more house era officials that a new base was planned for waters near Kuwait.

Last spring, after months of con-centrated Iranian attacks against Kriwaiti shipping, the shekhdom approached the United States and the Soviet Union seeking protection. The United States placed 11 Kuwaiti tankers under the U.S. flag and naval protection, but Kuwait consistently asserted its sovereignty by refusing to allow U.S. ships into its territorial waters.

In turning down Kuwait's offer of a facility, the Reagan administration apparently expressed new concerns about the ability to pro-tect the barge and other targets inside Kuwaii waters from Chinese-built Silkworm missiles that Iran has used successfully against Kuwaiti shore facilities and tank-ers. The missiles can hit targets up to 50 miles (80 kilometers) away. The change to the U.S. position caused some key Kuwaiti officials

to question whether U.S. officials, who had expressed confidence that ortain the medium-sized min. JU.S. forces can be protected against Silkworms, were now trying to disengage themselves, citing security concerns, from any commitment to defend Kuwait.

The importance of the Kuwaiti offer and the U.S. response, in the view of a number of Western and Arab officials, is that it focuses attention on the distinction be-tween the narrow U.S. role of es-corting the reflagged Kuwaiti tank-ers and the much larger implicit policy of containing the seven-year Gulf War and protecting Arab Guif states, Kuwait, the official said, had of-

fered to moor an ocean-going barge in territorial waters between its main oil port and the entrance to the port channel. Line in the ropes and termed "an attack on Kuwait." The barge operations are han-dled in highly classified channels to give the bases as low a profile as SUIS OUT SUBMITS Martin Carlo possible, sources said. Gulf-based supply companies that service the barges are instructed to keep their locations secret.

To protect the barges, the navy is using trained "guard dolphins" to patrol the waters near them day and night, Western sources said.

Convoy Leaves Gulf

The Defense Department said Saturday that the 19th U.S. Navy escort of reregistered Kuwaiti tank-ers moved safely through the Strait of Hormiz and out of the Gulf on Saturday, Renters reported from Tampa, Florida.

both countries. It is another sign of the confusion in the Moslem world ed to be in a better military posi-tion in the northern Gulf," the offi-gial said. At talks this fall, Kuwait caused by Iran's radicalism.

Since the early 1980s, Pakistan has kept an clite tank bugade sta-tioned in Saudi Arabia at the king-dom's request to help defeod against outside attack, ostensibly from Israel. There is an unspoken assumption that the highly mobile tank brigade was also intended to provide an extra measure of securi-

ry for the Saudi royal family. But the contract arrangement, which provided diplomatic and economic benefits to Pakistan, has been dissolving in the last year and

a half. According to Pakistanis and diplomats to Islamabad, the trouble over the troops arose when it became clear that they might become embroiled in the tensions between children in the tensions between Iran and Saudi Arabia growing out of the Iran-Iraq war. The Saudis are strong backers of Iraq. One official said Saudi Arabia even indicated that it wanted to use

the Pakistani troops to confront Iranian forces directly. But Pakistan, which has a long

border with Iran and a 15 percen

Shiite population, sees grave dan-gers to confronting Iran. Sandi Arabia has also become more wary of Shiite influence to its own country, notably after the vio-lence on July 31 involving Iranian Shiites during the annual pilgrim-age to Mecca, Saudi Arabia.

Pakistan's role to defending Sau-di Arabia is a highly sensitive topic, about which Pakistani military experts and foreign diplomats to Is-

ismabad are reluctant to comment. One Pakistani official familiar with the issue played down the Saudi decision not to renew the agreement, which ends in December, that has kept the Pakistanis in Sandi Arabia. "It was a contract for a fixed period, and now it is over," he said. The Saudis are raising their

own troops." Other Pakistanis and diplomats say the situation is much more complex; they say the heightened tensions in the Gulf region, fueled by the Iran-Iraq war, are forcing basic Saudi and Pakistani interests into conflict after many years of

congruence. The troop issue is believed to have first surfaced about a year or a

Latin America: **Towards Renewed Growth**

A major conference sponsored by The International Herald Tribune and The Inter-American Development Bank, London, February 11-12, 1988

Following the success of the International Herald Tribune/ Inter-American Development Bank's first conference on Latin America in 1986, we are delighted to announce our second major conference "Latin America: Towards Renewed Growth".

The conference will bring together key government, finance and business leaders from around the world to review major new developments in the region and look for new ways forward.

Among the outstanding group of speakers who have agreed in principle to address our conference are: Geoffrey Howe, Secretary of State for Foreign and Commonwealth Affairs, U.K., Antonio Ortiz Mena, President, Inter-American Development Bank, Guillermo Larco Cox, Prime Minister, Peru, Enrique Iglesias, Foreign Minister, Uruguay, Pedro Pablo Kuczynski, President, First Boston International and William Rhodes, Chairman, Restructuring Committee, Citibank NA.

American first strike. It also poses a threat to Mr. Gor-bachev's efforts to change the Soviet economy, since any effort in re-spond by developing a Sovies, nuclear-defense system whild drain resources needed for overhauling civilian industries. Thus, Mr. Gorbachev has linked cuts in strategic arsenals on both sides the some restrictions in the "star wars" program.

Despite the attack against heavy-handed military decisions, an un-usbal coalition of Soviet military officials has rallied behind the move for deep cuts in nuclear arsenals, indicating strong support of Mr. Gorbachev's policy.

The new defense minister, General Dmitri T. Yazov, publicly supported the intermediate nuclear forces and strategic treaties in a speech on Nov. 7. And the army chief of staff, Marshal Sergei F. Akhromeyev, played a key role in the Geneva negotiations on the in-

Banks Can Run From Risk But They Can't Easily Hide

By CARL GEWIRTZ International Herald Trabune

ARIS -- During the heyday of lending to developing countries, commercial bankers drew great comfort from the fact that the loans were at floating rates of interest. This eliminated what until then had been the classic risk for banks — lending at fixed rates while funding themselves at

As was later made clear, the banks merely avoided the expo-sure on funding costs to face a much larger risk over repayment. One lesson from that experience: Risk can be transferred, but

And from that stems the concern of banking supervisors over the array of innovative instru-

ments permitting financial and nonfinancial institutions to hedge interest and exchange rate exposures. "The new instruments."

instruments transfer risk, but don't

'New financial

but do not eliminate that risk. And, in the process, they create new credit exposures, and thereby increase the ways in which the

may be taking greater risks than were originally recognized. The perceived increase in risk to the international financial

system stems largely from the wide diffusion of swaps and the lengthening chain of parties involved in these exchanges of debt obligations for a mutual benefit. Often, the company or institution at the end of the chain has no idea who is going to fulfill the obligation in its name. At the same time, there are questions about whether swaps are priced to adequately reflect the risk. Despite these concerns, not much is known about the swap business

It's estimated that 60 to 70 percent of this year's new-issue activity in the Eurobond market is swap-related. But detailed information on who bears this risk and how they weathered the antumn upheaval in financial markets is still vague. Interest rate swaps are believed to be the largest part of the new

business. According to the International Swap Dealers Associa-tion, interest rate swaps amounted to \$67.6 billion in the second quarter of this year, setting a 12-month total of \$227 billion.

NINANCIAL institutions in the United States and Asia Accounted for all of the volume increase in the second quarter, based on the end-users of the funds, the ISDA reports. Of those classified as counterparties, 54 percent were from outside the United States - 23 percent in Europe, 27 percent in Asia and 4 percent elsewhere, notably from Canada, Financial institutions accounted for 72 percent of interest rate

swap volume, corporations for 22 percent and governments and supranationals for 6 percent.

There is no data on currency swaps, although the ISDA plans to survey dealers about that business as well,

Central bank officials who asked not to be identified said that at first glance they take a certain amount of comfort from the fact that the October upheavals in financial markets produced no contagious loss of confidence in financial institutions. There was no threat to the international financial system.

But these officials caution that this does not mean that the increasing use of swaps is any less a danger to the system than the Cross Report indicated.

The October experience," was less of a system threat thanks to the very strong action taken by central banks massively injecting liquidity and pushing down interest rates," said one official. "If

Move on Montedison Crowns Raul Gardini's Rise But Tough Job Is Seen for Man Who Would Be King

MILAN -- Raul Gardini's aggressive move to oust Mario Schimberni as chief executive of Montedison SpA, the chemicals giant, caps a meteoric rise to the top of Italy's financial establishment. Mr. Gardini, 54, who is chairman of the huge agribusiness company Gruppo Ferruzzi, was known two years ago only as the head of a sleepy, family business started by his father-in-law, Serafino Ferruzzi, in the

Adriatic port town of Ravenna.

The self-styled country farmer was considered an outsider to the northern Italian elite, overshadowed by entrepreneurs such as Fiat SpA's Giovanni Agnelli and Olivetu's Carlo de Benedetti.

All that has changed. "The farmer has become king," the influential daily Corriere della Sera said on Friday. "Gardini has grabbed the crown of Montedison with Napoleonic boldness, leaving the backstage of agro-industry for the second-highest seat of Italian capitalism." Ferruzzi, Montedison's biggest sharebolder, said on Thursday that it planned to replace Mr. Schimberni with Mr. Gardini at a board meeting on Dec. 4 because it wanted a larger management role. Many analysis believe that the officer will suggest

believe that the effort will succeed. Rumors flourished of a feud between the two men over the past year as Fernizzi built up its stake in Montedison to about 40 percent. In the past two years, Mr. Gardini has turned Fernizzi into one of Europe's

biggest commodities groups with annual sales of about \$10 billion. Ferruzzi, Italy's second-biggest private industrial company after Fiat, is now a major international player in the sugar, cereals and oil seeds businesses. With Montedison, it controls the world's ninth-largest chemicals group. Mr. Gardini plans to give the group more of a global dimension next year when he seeks

Vet many analysis say Mr. Gardini will face a stiff challenge in managing the Ferruzzi-Montedison empire. "Montedison recently bit off more than it could chew financially, and I'm not sure that Gardini is the man to put it right," said Stuart Wansley, an analyst at Morgan Stanley International in London. Mr. Schimberni, 64, the son of a barber from Rome, has shaken up Italy's discreet and close-kmit financial with light of the lost of a barber from Rome, has shaken up Italy's discreet and close-kmit financial with light of the lost of a barber from Rome, has shaken up Italy's discreet and close-kmit financial establishment more than any other figure in the last two years. He took over as head of Montedison in 1980,

when the then state-controlled group was running annual losses of almost \$500 million. He quickly turned to the industrial clite, families such as the Agnellis and Pirellis, to buy out the state's interest in Montedison. Mr. Schimberni shuffled Montedison's management, recruiting several executives

from multinational companies and radically restructuring its businesses. After the company returned to profitability in 1985, Mr. Schimberni began a bold expansion plan, mostly through acquisitions in the chemical and pharmaceuticals sectors. The group piled up a mountain of debt. Mr. Schimberni irritated the financial establishment and some of Montedison's own shareholders in 1985. and 1986 with secret stock market takeovers, rarities in Italy. Ironically, Mr. Schimberni's company fell victim to just such a raid from Ferruzzi in late 1986 and early 1987. Analysts saw it as a blow to his aim of keeping Montedison an Italian anomaly, a company owned by small investors.

Commenting on Mr. Schimberni's ouster, Eugenio Scalfari, editor of La Repubblica, said: "A rupture of these dimensions, which fractures vertically a complex system of alliances built with much difficulty, is not a small trauma. If it's not an earthquake, it's pretty close."

U.S. Purchasers Say Economy Is **Still Growing**

New York Times Service stock market collapse had little im-NEW YORK - The U.S. industrial economy continued to grow in capital spending. The October figures represent November despite the stock market's collapse, according to a report the largest amount of orders so far by purchasing managers for publi-cation on Monday.

this year. Commenting on the purchasing managers' report, Robert J. Bretz, chairman of the association's Busi-Production and new orders increased for the 11th month in a row, although at a slightly lower pace than reported in October, the ness Survey Committee, said, "For the near future at least, the stock National Association of Purchasmarket decline has had only a miing Management said.

nor impact on the economy. "Virtually all indicators remain positive. While the growth rate is Employment rose for the eighth consecutive month, although only slightly, according to a survey of off slightly from October, the econ-250 purchasing managers, largely in heavy manufacturing. omy continues to grow. "We have the means of preventing system of continuing to live in a dangerous world."

Plans are already under way to make swaps a less dangerous business for banks. Next month, the Federal Reserve and the Bank of England are to announce an agreement on defining bank capital and setting common risk ratios for such business as interest rate and exchange rate options. The pact is intended to set a standard for other national authorities.

But one consequence of limiting the risk banks can run in writing swap contracts may be to drive the business outside the relatively tightly regulated banking system to other, less-regulat-ed financial institutions such as securities houses and insurance companies. The deals could even move outside the financial sector altogether to corporate financial departments or to individuals.

Officials are less worried about the possible damage to the See EUROBONDS, Page 9

West Is Confident on Oil

Huge Stocks Lessen Fears of Disruption

By Youssef M. Ibrahim New York Times Service PARIS - New conditions af-

fecting world oil supplies have put the industrial countries in a position to withstand even a major dis-ruption of the flow of petroleum from the Gulf, according to senior

officials in the United States and other Western countries. Unlike the shocks to Western

economies when Middle Eastern crude was withheld from world markets in 1973 and 1979, Western industrialized countries today could draw on billions of barrels of oil stored in the United States, Western Europe and Japan, as well as a large amount of unused oil-

producing capacity in countries outside the Gulf.

1.0174

Per 3

U.S. officials have said they in-creased the number of U.S. naval vessels in the Gulf this year to assure that the flow of oil is not interrupted. However, the buildup

of U.S. and other Western navan forces has also been explained in political and military terms: to other members of the International maintain Western influence in wa-ters in which the Soviet Navy has also become active and to reassure deal with oil shortages, have put into effect a plan to share oil in an

the Organization for Economic Co-operation and Development, which include the Western democracies

of oil stored This is enough to supply all 24 countries for 97 days at present rates of consumption. That is strik-ingly different, many analysts said, from the days of the 1973 Arab oil

embargo, and the Iranian revolu-tion, which interrupted the flow of about 6 million barrels of Iranian 1.3936 * 0.2592 1.239 * oil a day in 1979. Based on strategic studies and

the experience of the Iran-Iraq war, many officials believe that a major disruption could not outlast the 97 days of reserves. They said that countries such as Nigeria, Mexico and Venezuela with unused pro-

rates and ventures would be quick to take advantage of the sudden increase in demand for oil.

Furthermore, if the disruption were confined to Gulf tanker traffic, the Western countries would also continue to get Middle Eastern price of oil at \$18 a barrel, Reuters 25.42 oil from an increasing flow through

overland pipelines. "We can put between 3 and 4 port to drive up prices when the million barrels a day into the refin- Organization of Petroleum Exporting capacity of the United States ing Countries meets in Vicana on alone," the U.S. secretary of ener- Dec. 9. Algeria's deputy energy gy, John S. Herrington, said in an minister, Sadeq Businna, said in interview last week. "In the United Kuwait that Algeria favored high States alone we have 120 days of prices, but added: "In the current mention which writted us abainst context what is just and what is supplies, which protect us against context, what is just and what is any dislocation -- three times possible may be different."

greater than anything we have seen in 1973 and 1979." He said that the United States holds about 540 million barrels of the West's emergency reserves in its Strategic Petroleum Reserve. U.S. and other Western officials said that this situation had thwarted Iran's apparent hope that its attacks against Kuwait's oil facili-

ties would add to the disarray in Western financial markets.

Instead, oil prices have remained nearly steady, at \$18 to \$20 a barrel over the past 12 months, even as the level of military activity in the Guif sharply increased. Government officials said that the attacks on tankers in the Gulf.

on oil facilities in Kuwait, Iran and Iraq, and threats of further distur-

bances have failed to push oil prices up over the last three years. The contrast with the 1970s is striking. At that time, even rumors of damage to a Middle East oil facility would send prices soaring.

In addition to the U.S. reserves.

West Germany has stored more than 170 millioo barrels and Japan and Japan, had 3.3 billion barrels 150 million, the agency said.

The effort to build up stocks was enormously aided by the discovery in the mid-1970s of important supplies in Western Europe, centered in the North Sea, and major discoveries in Alaska, the agency said.

Altogether, the agency estimated, the flow of oil through the Gulf and the Strait of Hormuz has fallen from 19 million barrels a day in 1979 to between 7 million and 7.5 million barrels a day today. In 1979, this oil represented 36 percent of the non-Communist world's supply, but today the share has dropped to 16 percent.

 Algerian Doubts on Prices Oil analysts said Iran lost an im-

portant ally on Saturday when Algeria apparently joined most Arab oil producers in backing Saudi Arabia's stand to keep the beachmark reported from Manama, Bahrain, Iran has been trying to rally sup-

There should be more to global corporate banking than good deals

Reaching farther to bring you more

As Japan's premier corporate wholesale bank and a globally integrated financial group, IBJ sees the use of creative dealmaking, global markets and sophisticated financial products as the ideal way to give you greater opportunity and choice in all your business activities.

But then IBJ looks further, beyond globalization and the eternal quest for innovation. We spend the time and the resources to also learn as much about our clients as we can, and we stay with them throughout their long-term plans for business growth and development.

This is the IBJ approach to global corporate banking. It's a major reflection of the IBJ philosophy and simply the best way we know to help you meet your financial and business needs on the complex global market.

Japan's Influential Mr. Saito Points a Mirror at U.S. allowing foreign builders to participate in particular construction projects of that For some Japanese, Eishiro Saito, as Q. But you've been living with 135/140, and from this fact can we conclude that

head of the country's most powerful employers' organization, the Keidanren, exercises influence on par with the finance minister or central bank governor. As a new government takes shape in Tokyo, faced with the challenge of adapting policies to reflect Japan's growing power in the international economy, Mr. Saito spoke in Tokyo with John Vinocur, executive editor of the IHT. Mr. Saito's remarks were made through an interpreter.

Q. Where do you think the dollar and yen will stabilize and how long a period of time will it take to get to that stabilization? A. This is a very often asked guestion and nobody can answer it on any firm economic ground, because a question of this sort, we feel is 50 percent economic and 50 percent psychological.

Q. Let me move in a more fruitful direcuon, then. At what level - dollar/yen do Japanese industries begin to hurt? A. Again, the answers are relative. In September 1985, the exchange rate was 260 yen to the dollar. It went to 200 and to 210, and I remember we used to say that 200 and 210 was as far as we could go and tolerate it, economically. But then the yen started going up to 180 and 150. That's the latest thinking on the ultimate level of exchange rate that we can tolerate.

After Bilbao's chairman, Jose

currency rates are simply not the solution to the trade imbalance.

A. Well, I agree with you. Currency alignment is not the only way. It has to be coupled with other efforts of that nature. especially in terms of strengthening the

MONDAY O&A

competitiveness of American industry of better price and better quality, which of course does not mean that there are not areas where Japan should not do its own homework, like encouraging imports. Q. Let me take another example: the con-struction projects in Japan. What's your position on American firms' involvement in those projects? A. Well, I realize that the United States has

been demanding, asking some kind of a reciprocal arrangement involving public works projects. But Japan's position is that this program must first be worked out by having the United States, Japan and other countries come to the table and devise some rules for this program.

Americans would answer: That's a dodge. How do you react to that? A. Well, I think it is wrong to say that such positions by the Japanese government are "a dodge" or "evasion of the issues." But as far as the United States is concerned, each state has different rules and regulations

STATE.

We have made every effort to try to increase imports from abroad to solve the problem of trade imbalance. Even in construction, if there are non-Japanese industries that are more efficient than we are, then let them come in. And at the same time, the United States should do its own homework as well to make its industries more efficient and improve competitive-DESS

Q. Given the dollar's current weakness, how do you regard the continuation of capital flows from Japan to the United

States in long-term investment? Do you think they are going to decline? A. All I can say is that it does not look right for the United States to continue to depend very largely on overseas funds to finance its continuing budget deficit. It first must direct all its efforts and resources to resolving two basic problems bothering the econo-my: the deepening of the federal budget deficit and the still-aggravating trade im-

nalance. Q. Japanese industry seems to proceed quietly in its relationship with European countries that have strong tariff barriers or other protection practices that exclude, for example, Japanese cars or television sets. Yet you are vocal, aggressive in relation to enforce agreements reached through inter-the United States, which is almost a bazaar vention in the currency market.

Japan Vehicle Exports Fall

Reuser

-where anyone can walk in. Why is there this distance?

A. I don't think Japan is vocal or as loudmouthed as you seem to think in relation to the United States. On the contrary, it is America that is more loudmouthed and vocal against us. We have already discussed exchange-rate questions. What is most crucial, in particular in stabilizing foreign exchange rates, is coordination. collaboration and cooperation between and among Japan, the United States and the European countries. This is why I feel very strongly that if a meeting of the Group of Five nations or Group of Seven nations is to be reconvened, all the countries need

first to build a secure-enough consensus to coordinate their policies. If the next meeting is going to end up inconclusively be-cause this necessary prior consensus is not there, then we might end up with another major, catastrophic market crash.

Q. More specifics, please. When you're talking about coordination, cooperation, what do we do specifically?

A. What I am saying is very much in line with the sort of things that came out of the Venice economic summit meeting, i.e., sur-veillance of the performance of economic policies so that there is no major digression from what is agreed upon in terms of exchange rate, etc. To put it more bluntly, these participating countries should try to

Multi-Option Facilities Are à la Mode In Rush of Programs Before Holiday

By Carl Gewirtz International Herald Tribune

PARIS - A flood of credit programs was announced last week as bankers rushed to clear their desks ahead of the international credit market's year-end holidays. Multi-option facilities, giving

the facility borrowers the right to tap various short-term instruments before drawing from the banks, are the fashion, especially for French borrowers.

BSN, the food and drinks com-

INTERNATIONAL CREDIT drawn.

pany, will tap the market this week for a \$600 million multi-option facility that will run for five years. Because drawings can be made in French francs as well as foreign currencies, underwriters are limited to banks operating in France, who

therefore have access to francs. The annual facility fee will be 5 bear the reserve asset costs of lendbasis points. Drawing charges will ing banks. be 10 basis points over the Paris American Brands, a diversified interbank rate for drawings in tobacco and foods group, appoint-ed Ciucorp to arrange a \$600 mil-lion revolving credit facility with a manurity of three years. The loan will pay interest at 20 basis points francs or 2 basis points over the London interbank offered rate for foreign currencies. Utilization fees will add 2 basis points for drawing up to one-third of the credit, 4 basis over Libor and if more than half is

points for up to two-thirds and 6 basis points for more than that. Dollfus Mieg & Compagnie, a French textile manufacturer, is

seeking a five-year multi-option fa-cility of 150 million Earopean Cur-rency Units. The annual fee is 7 A no basis points and the cost to draw on the loan is set at 1714 basis points over Pibor or 81/2 basis points over

There will be a utilization fee of 5 Libor.

Also seeking a five-year multi-option facility, of 80 million ECU, is Leroy-Somer SA, a French maker of industrial electric motors.

The charge on drawings is 10 basis points over Libor and 1834 basis points over Pibor. There are utilization fees of 3 basis points for using more than 33 percent of the facility and 6 basis points for draw-

ing over 66 percent. The annual facility fee is 7 basis points and participation fees range growth up to 6 basis points for underwrit-ing 10 million ECU. Credit Lyonall three of these operations.

Bankers reported last week that Aerospatiale's multi-option facility of 3 billion francs had drawn un-derwriting commitments of 5 bil-derwriting commitments of 5 bil-derwriting commitments of 5 billion frances by the end of the syndi-cation period, but no decision had yet been made on whether to in- vestors contributed to worries crease the facility, which carries an about inflation. annual fee of 5 basis points.

Gervacio Takes Junior Featherweight Title

SAN JUAN, Puerto Rico (AP) - Julio Gervacio of the Dominican Republic stripped American Louie Espinoza of the World Boxing Association junior featherweight title on a unanimous 12 round decision here Saturday. Gervacio, 20, has a record of 15 victories, no losses and two draws. Espinoza suffered his second defeat against 25 successes.

In Port-of-Spain, Trinidad, Donny Lalonde of Canada knocked out American Eddie Davis in the second round of a scheduled 12-rounder Friday to claim the Entite Davis in the second round of a scheduler 12-rounder Phoay to Claim the vacant World Boxing Council light heavyweight title. The two fought for the title vacated when Thomas Hearns stepped down to the middleweight ranks. Lalonde, 27, is the first Canadian to 61 years to win a light heavyweight title. His record stands at 30-2; Davis, top-ranked in the division coming into the fight, is 38-6.

Howard University's Playoff Bid Is Rejected

WASHINGTON (AF) — A lederal judge on Friday denied Howard University's request that the Division I-AA playoff games be halted while Howard sues the National Collegiate Athletic Asociation over its exclusion from postseason play. Howard claimed its 9-1 team was illegally excluded from the playoffs and that the predominantly black school, which has a record better than any other to the playoffs was racially discriminated against. Howard said it would pursue its suit playoff, was racially discriminated against. Howard said it would pursue its suit seeking damages from the NCAA.

FUCHU, Japan (AP) — Le Glorieux of France, ridden by Alain Lequeux, won the Japan Cup Sunday, three-quarters of a length ahead of an American horse, South Jet. Le Glorieux was timed in two minutes, 24.09 seconds, a record for the 2,400-meter (11/2-mile) race in suburban Tokyo. Prerace favorite Triptych finished fourth.

Svet, who this fall trained occareer, was the runner-up, nine-hun-dredths of a second behind Tomba. sionally with the Yugoslav men, leads the overall women's standings with 40 points. Second is Spaniard Blanca Fernandez Ochoa at 35; Wolf has 25.

West German Michaela Gerg placed fourth Sunday in 1:17.71, with Italian Deborah Compagnoni shining in only her second cup race by placing fifth. Fernandez Ochoa, winner of the season-opening slaiom, finished sixth and American Edith Thys, a C-team racer last season, was a surprising seventh. Swiss women, all-conquering at

last February's world champion-ships with an eight-medal haul, had to settle for the 10th-place finish of (UPL, AP) Alberto Tomba; "I had hoped to make the podium, but. ... Vreni Schnieder.

The Amsterdam stock market was virtually stable last week. The ANP general index lost 2.9 points on the week to close at 213.3, against

Tomba Takes 2d Straight Race; Wolf Wins

216.2 the previous Friday. The U.S. budget agreement and lower inter-est rates in the Netherlands, West Germany and France were seen as important signals, but many analysts said the U.S. action was too late

and did not go far enough. Kempen & Co, brokerage said prices would stabilize at present levels.

Frankfurt

The agreement on the U.S. budget deficit helped the tone on the Frankfurt stock exchange last week, and the Commerzbank index gained 33.9 points on the week to close at 1,359.6, up 2.6 percent.

Volume rose slightly on the eight West Ger-man stock exchanges to 9.32 billion DM, against 8.56 billion the previous week.

Blue chips made good advances for the week, with Daimler up 20 and Siemens up 10.80

Milan

Shrugging off several weeks of gloom, Milan stocks surged last week, and the Milan Stock Exchange Index rose 6.95 percent over the previous week to close at 739 points. The biggest buying stimulus came from Montedison, whose chief executive, Mario Schimberi and meland of the

lig th C

Schimberni, was replaced by the head of the Ferruzzi group, Raul Gardini, who is Monte-dison's biggest shareholder. Montedison's shares rose 5 percent over the week.

Paris

Paris stock prices rose moderately last week in quiet trading, but analysts said the mood was pessimistic at the end of the week. The CAC index finished the week at 296.5.

against 285.5 the previous Friday. Analysts said that the dollar's continuing weakness, lack of a meeting by the Group of Seven major iodustrial countries and Japan's determination not to lower its discount rate prevented a stronger rally.

Singapore

TOKYO: Cloudy. Terms. 10-7 (50-45).

Hong Kong

Average daily turnover on the Hong Kong stock market slumped to 840 million Hong Kong dollars last week, well down on the previous week's 1.15 billion dollars.

The Hang Seng index dropped 72.99 points Monday, but the index finished at 2,194.18 on Friday, down 20.52 from the previous week. The market rose slightly Monday morning because of the U.S. budget agreement, but speculation that an appreciation of the Hong Kong dollar against the U.S. dollar might be looming reversed the trend, analysts said.

London

Trading volume fell to its lowest level since December 1986 on the London Stock Exchange last week.

The Financial Times 30-share index ended 22.7 points up on the previous week, and the Financial Times-Stock Exchange 100-share index up 18.2 points.

Shares moved ahead on the U.S. budget agreement, a survey by the Confederation of British Industry showing confidence in the economy, strong trade figures and cuts in interest rates by several European countries. How-ever, that was offset by the dollar's relapse, putting heavy pressure on such internationals as ICI and Glazo.

rnces cu

Singapore stock exchange. The weakening of the U.S. dollar dampeness market sentiment, reflected in Friday's unit over of 12.9 million units, the lowest this year. The Straits Times Industrial iddex dipped 9.52 points to end the week at 814.85.

Tokyo

Prices on the Tokyo Stock Exchange rose for a second week, with the Nikkei average recov-ering the 23,000-yen level for the first time since Nov. 4.

However, prices fell heavily in thin trading on Saturday on gloomy overnight news from Wall Street, and the Nikkei declined 216.39 yen to close the week at 23,052,23 yen, for a total gain of 346.67.

Analysts said the next few weeks' trends would depend on whether the Group of Seven industrial nations meets shortly,

Zurich

Prices were irregular on the Zurich stock market last week. The Credit Suisse index rose marginally to 444.8, from 438.6 the previous Friday, and the Swiss Bank Corp. index, to 493.8 from 489.6.

Analysts were cautious about near-term prospects, saying much would depend on the dollar.

French Are Moving to Block **Hostile Foreign Takeovers**

Reuters

PARIS — Low stock prices are prompting French companies not only to lamch defensive stock buy-backs, but also to consider mergers and other capital restructurings before the dis-manuling of European financial barriers in 1992

Share analysts said internal moves to strengthen capital against outsiders would probably be supported by a parallel govern-ment effort to prevent underdeveloped industrial sectors from hostile takeovers as the market opens up.

"The current low stock prices provide an opportunity which probably will not come again," said Edouard Cointreau, an analyst.

again," said Edouard Cointreau, an analyst. Mr. Cointreau, who heads a private industri-al consulting group, added, "we are going to see more consolidation, in line with long-term strategies, as companies prepare for 1992 when they have to face up to European competition.

Aggressive takeover bids, such as that launched last month by the Italian commodities empire, Gruppo Ferruzzi, against the sug-ar and edible oils company, Saint Louis, are driving French groups to make such moves. The top-ranking French companies are the

most attractive to raiders and that means the attacker has to be a powerful group with a lot of stamina, one analyst said.

In late October, Ferruzzi announced it had taken a 6 percent stake in Saint Louis. Within two weeks, it raised that to almost 14 percent

through purchases on the open market. Saint Louis, reluctant to be part of the global strategy of the Ferruzzi chairman, Raul Gardini, retaliated quickly to the first threat by ncreasing its capital.

Earlier this mooth, a new factor was intro-duced when Finance Minister Edouard Balladur referred the Ferruzzi-Saint Louis issue to the fledgling monopolies commission.

Analysts said more referrals could occur as the government, still protective of its major industries, tried to prevent foreign bids for its most important companies.

France would probably call in its new com-mission, for instance, if the latest takeover speculation, centering on the insurance indus-try, proves well-founded.

On Tuesday, shares in the insurance group, Compagnie du Midi, rose sharply on rumors of a bid by Allianz AG of West Germany. Midi denied the rumors and Allianz declined comment, but Midi shares rose 91 francs (\$1.61) to 946 oo Tuesday and added another 10 francs Thursday.

Analysts said they would be surprised if the government allowed the acquisition, since the government is aware that the insurance sector is underdeveloped.

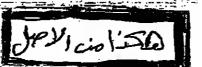

For this reason, the government has been careful not to float its three nationalized insurance groups early in the privatization program, before they were ready. The collapse to stock prices eventually caused a postponement of the December flotation of the largest, Union des Assurances de Paris.

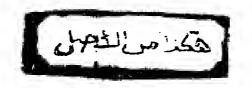

. .

مريار م

- ----

Susanna Hardy, an analyst with the London brokers, James Capel, said: "There's a fear the if France opens up more, the way Germany for example has an open economy, they will be railroaded, because they don't have the strength behind their currency and their indus-try hasn't yet pulled itself out of the late 1970s and early 1980s."

Saints Melt Steelers, 20-16

field goals.

The Associated Press

PITTSBURGH - Big defensive plays set up scores for New Orleans as the Saints rallied Sunday to beat the Pittsburgh Steelers 20-16 in National Football League action. New Orleans is assured of the first winning season in its 21-year history.

With the Steelers leading 14-10, the Saints' defense - the second-best in the NFL - forced a fumble ahead of Bobby Hebert's fourth-quarter scoring pass. Then the Steelers Mark Malone was intercepted to set up Morten Andersen's second field goal of the game.

Rueben Mayes scored on a 5-yard run in the third period as the Saints won their fifth in a row, rallying from a 14-3 halftime deficit in a game dominated by two of the league's best defenses. After Andersen's 32-yard field goal in the mid-

dle of the fourth quarter, which made it 20-14, the Steelers quickly marched to a first down at the 4yard line of the Saints on Malone's completions of

34, 7 and 11 yards to Calvin Sweeney. But Merril Hoge was held to a yard on a secondand-gosl play from the 2. Malone then threw an incompletion and linebacker Sam Mills slammed into fullback Frank Pollard just short of the goal line on a fourth-down sweep with just over two minutes left seemingly to preserve victory for the Saints.

New Orleans kicker Brian Hansen ran out of the end zone for a safety with a minute to play, rather than risk a blocked punt. But the strategy nearly backfired as Malone completed passes of 18 yards to Weegie Thompson and 11 yards to Sweeney for a first down to the Saints 3 in the closing seconds. But Malone was sacked for a 7-yard loss and then was intercepted by Dave Waymer ou the final play of the game. New Orleans is now 8-3 and Pittsi-

derson and Thomas Sanders each scored a touchdown and Kevin Butler kicked three field goals to

Anderson grabbed a 20-yard pass from Jim McMahon in the first half and Sanders bolted seven yards for his touchdown in the fourth quar-

retained their two-game lead in the Central Divi-sion of the National Conference. Green Bay fell to 4-6-1 and was eliminated from postseason play. The two teams battled to a 10-10 tie in the first half and the Bears turned two key plays into scores in the second half, Todd Bell blocked a Max Zendejas field goal

ter while Butler connected on 21-, 27- and 52-yard

The victory gave the Bears a 9-2 record and

attempt in the third quarter and the Bears turned it into a be-breaking 27-yard field goal by Buder. Bills 27, Dolphins 0: At Orchard Park, New York, Buffalo's defense limited the Miami offense to 229 yards — just 23 on the ground — and stopped Dan Marino's streak of 30 straight games with at least one touchdown pass, in shutting out the Dolphins for the first time since 1982.

Miami dropped to 5-6, while Buffalo now is 6-5 and assured of at least a piece of the division lead.

New York Jets 27, Bengals 20: At East Ruther-ford, New Jersey, Rich Miano returned a blocked field goal 67 yards for a touchdown with less than two minutes remaining to give New York the victory over Cincinnati.

The Jets, 6-5, remained in a first-place tie in the AFC East after entering the game as part of a five-way logiam. The Bengals fell to 3-8 and continued their problem of faltering late in games.

Colts 51, Oilers 27: In Indianapolis, Eric Dickerson ran for 136 yards and two touchdowns and running back Albert Bentley caught two scoring sses to lead Indianapolis over Houston. The Colts improved to 6-5 and remained tied for the AFC East lead, but they lost quarterback Gary

Hogeboom to an injury for the second time this season. Houston committed five turnovers and fell to 6-5 with its third loss in four games.

Cardinals 34, Falcons 21: In Atlanta, St Louis quarterback Neil Lomax threw for 369 yards and two souchdowns to hand the Atlanta its sixth, straight defeat.

The Cardinals are now 5-6, while the Falcons drop to 2-9,

Cash and Lendl in Final **Of 'Stakes Match' Tennis**

By Lisa Dillman Los Angeles Times Service WEST PALM BEACH. Florida

Match is turning the tennis world

went one step further and turned a table over in froot of a group of journalists in the interview room. Two of the losers were saying, in effect, they were glad they lost because they might end up making more money than one of the players in Sunday's final. And, essentially, the first skins-game Stakes Match was shaping up as the Ivan Lendl Invitational.

What can you say about a day in which Pat Cash lost three matches and ended up winning a spot in the final?

The second day of the three-day competitico at the Palm Beach Polo and Country Club started off routinely enough with a John McEnroe tantrum and subsequent fine.

Things took a sharp turn toward the bizarre before it was over, but but Cash topped it all in his brief along with some radio equipment. and sat down behind a table. But Cash saved himself from falling Tom Station Product

upside down, but this is ridiculous.

A \$175,000 Ace by Trevino Sews Up Golf's 'Skins Game'

United Press International LA QUINTA, California -- Lee Trevino struck for a \$175,000 holein-one on the 17th hole Sunday, giving him \$310,000 and a victory in golf's fifth annual Skins Game. Trevino's 6-iron shot on the par-

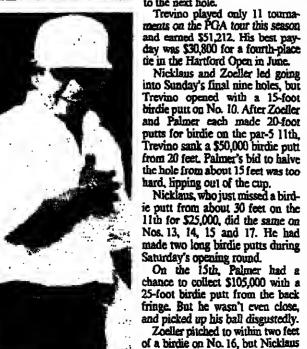

with his startling bole-in-one. Teeing off first after four car-167-yard (152.7-meter) hole bounced about four feet in front of \$175,000, Trevino at first couldn't the flag on the island green before settling into the cup. Trevino won all \$285,000 available on the secbelieve his shot disappeared in the hole. He leapt into the arms of his caddie, threw off his cap and thrust ond day of the tournament. his arms skyward as the gallery of

Trevino, who began the back nine at PGA West with \$25,000, about 8,000 specators roared. rolled in three birdic putts — at No. 10 for \$25,000, No. 12 for \$50,000 and No. 18 for \$35,000. ther than that." Palmer, Nicklaus and Fuzzy The birdie on 18 (won when two-

time defending champion Fuzzy Zoeller missed a five-footer) also earned Trevino an automobile. Jack Nicklaus narrowly missed

nceding an ace to halve the hole. None, of course, got it. "Well," sighed Zoeller as his shot went 12 five 30-foot birdie putts and fin-ished with \$70,000. Zoeller, who had pocketed \$625,000 the last two years, also finished with \$70,000. Last year Zoeller collected \$310,000 on the back nine alone. Arnold Palmer, at 58 the oldest

of the participants, earned nothing. He hasn't won a skin in 28 holes to the next hole.

Lee Trevino "It can't get any pressier than that." stay in the interview room. He nearly hitting some writers in the walked in, stepped on the platform front row. "Sorry," Cash said sarcastically as he exited, leaving a form, and he started to slip back. bind.

Which left everyone wondering

what had happened. Possibly, after the way he performed Saturday, the possibility of losing all of his stake against Lendl in Sunday's final was getting to Cash, even though he denied it.

McEnroe, for one, was glad be wouldn't have to face Lendl in a best-of-five match of 21-point and showed his frustration on the games — with the first starting at 15th, when he was well short on a \$30,000 and increasing by \$30,000 15th, when he was well short on a birdie attempt worth \$105,000. birdie attempt worth \$105,000. Trevino sank a 68-yard wedge shot for an eagle and \$55,000 last year, but he topped that Sunday five-shot rally and Lendl wins it, he receives \$2,000 of Cash's money.

"The way it's set up now, it's ryovers made the 17th worth almost better for the guy in third place than the guy in second," said McEnroe, who finished fourth with only \$182,000. Like, for example, if Cash con-

tinues the same thing - he was the favorite and suddenly he's playing "Well, when it was in the air, poorly and it doesn't look like he's Jack said it was a pretty shot," as confident. If he loses the match Trevino said. "It can't get any pret-in straight sets or if Cash wins the first and loses the next three, he's going to lose a lot of his money. He'll come in last. He'll wind up Zoeller followed Trevino to the tee, with less money than everyone

else." Potentially, without couoting feet past the cup, "I just flat blew a rally poiots, Cash could lose hole-im-one again." \$180,000 if Lendl beats him in In the Skins Game, each hole is a straight sets. Or, if it went to Lendl tournament in itself. The first six in four, with Cash winning the first were worth \$15,000 apiece, the middle six \$25,000 and the final six Said Stefan Edberg, who won

middle six \$25,000 and the final six Said Stefan Edberg, who won \$35,000. If no one won a hole (or three matches Saturday and fin-skin) cutright, the cash carries over ished with \$234,800: "It turned our to be pretty good. I didn't do well [Friday]. It looked like I was going Trevino played only 11 tourna-ments on the PGA tour this season to end up with nothing. It's very and earned \$51,212. His best pay- different - tomorrow the second

day was \$30,800 for a fourth-place guy may lose everything." the in the Hartford Open in June. The way Lendi is playing, that Nicklaus and Zoeller led going could happen. The world's topinto Sunday's final nine holes, but ranked player started slowly Satur-Trevino opened with a 15-foot day, losing his opening match to birdie putt on No. 10. After Zoeller Edberg by 15-4. But he came back and Palmer each made 20-foot with victories over Cash and putts for birdie on the par-5 11th, McEnroe, eliminating McEnroe Trevino sank a \$50,000 birdie putt from the competition.

The McEnroe-Lendl match was the hole from about 15 feet was too the day's final, and McEnroe needed to win \$32,700 to surpass Cash. He stayed close until 8-8. Then ie putt from about 30 feet on the Lendi hit an ace with his second 11th for \$25,000, did the same on serve -- winning \$2,000 -- and that

Nos. 13, 14, 15 and 17. He had was it for McEnroe. made two long birdie putts during "I knew I finished nin on man in man in the ace," said Lendi, who is hit the ace," said Lendi, who is On the 15th, Palmer had a leading with \$332,600 to Cash's

25-foot birdie putt from the back fringe. But he wasn't even close, money Sunday didn't seem to bothand picked up his ball disgustedly. er Lendl, who signed up for this Zoeller pitched to within two feet of a birdie on No. 16, but Nicklaus was good from about six feet for a bird. Zoeller then sank his putt, body knows the risk. If you want to making the 17th worth \$175,000 -- win big, you have to take the chances

The Perimeter of the Prodigious Solzhenitsyn

By Charles Trueheart Washington Past Service society, too, was bankrupt — AVENDISH, Vermont — High above town along ously indifferent to the Soviet Windy Hill Road, just beyond the gash of the power lines and the graveyard in the hillside, Alexan-der Solzheniusyn's perimeter fence begins. Every few yards, painted signs declare private property, brook no trespassing. At the gate, a camera's eye is vigilant.

Re-shall far the second s

Page 14

Soviet Russia's most prominent exile bough1 and fortified this 50acre estate in 1976. The Nobel laureate's expulsion from Moscow two years before, and the erratic movements and blunt pronouncements in the West that followed. had turned him into journalistic flypaper. Today, though his nov-elty has worn off, Solzhenitsyn is still beleaguered, oot just by the remnants of a curious press, but by rubberneckers and well-wishers and assorted pilgrims.

But he must husband his time. Solzhenicsyn will turn 70 next year. He does not consider it luck that he survived the privations of Stalin's labor camps or that he vanquished a harsh cancer 30 years ago. But he knows his mission to warn the world against communism does not carry an indefinite term. He has work to do.

The year he moved to Cavendish, in a conversation with one of his publishers, Solzhenitsyn ob-served that he had set the action of his novels in closed institutions ---labor camps in "One Day in the Life of Ivan Denisovich," a prison research facility in "The First Circle," a clinic in "Cancer Ward," not in mention "The Gulag Archipelago" — because he had spent so much of his life in confinement. It is the world he knows. Years later, a free man in the land of the free, he has chosen a confinement of his own making.

Westerners, and certainly Americans, thought they knew the living myth who settled among them: the resilient survivor of Stalinist slavery and Brezhnevian repression; the authentic voice of the Russian heartland and exponent of its folkways: the visionary David poised against the clumsy Goliath of the Soviet lie.

Solzhenitsyn thought American times until late in the evening — society, too, was bankrupt — to his study, a book-lined space on soulless, self-indulgent and peril-the top floor of a three-story annex the Solzhenitsyns built soon menace. He was a monarchist of sorts, a reactionary, a mystic. That he has been misunder-

stood, repeatedly, is certain. Referring recently to the news media and those interested parties who

and mose intrough them, he said: "They lie about me as they would about a dead man." He has, it is true, achieved the misty stature of the departed. Even though his culture to be configured. output continues to be prodigious, he is more remembered than read — and remembered as much for what he endured as for what he wrote, or writes. iuxtaposition. It has been suggested that, if

Mikhail Gorbachev means what he says, the work of Alexander Solzhenitsyn might be published in the Soviet Union for the first time in more than two decades and he might return.

"I cannot go back before my books," Solzhenitsyn said recent-ly, in the lofty and peremptory manner the world has come to expect. "First the books must return, then me."

Meanwhile Russians can hear Solzhenitsyn himself. In mid-October, for the second time since he settled in the United States, he follow. spent two days taping selections from "March 1917." Broken into 20-minute segments by the Voice of America, daily broadcasts of his animated narrations are reaching as many as 33 million people inside the Soviet Union.

A Russian emigre who was a recent overnight visitor to the Solzhenitsyn estate describes the family quarters and the author's nearby office as a bustling place, an informal nerve center for the diaspora of Russian emigres in Europe and the United States. Phone calls are unremitting, and

guests are common. Natalia Solzhenitsyn, the author's second wife and mother of his three teen-aged sons, heads the Russian Social Fund, endowed with royalties from Solzhenitsyn's "Gulag Archipelago," which as-sists political prisoners inside the century Russia. Soviet Union and dissidents in

after they bought the property in 1976. (The building also houses a library and a chapel, where a Rus-sian Orthodox priest from a near-by church conducts private reli-gious services for the family.) Solzhenitsyn's work in progress Solzhemisyn's work in progress is the eight-volume history of the Russian revolution he calls "The Red Wheel." Like "Gulag," which he subtitled "an experiment in lit-erary investigation," the series is a kind of documentary fiction, com-bining historical research with the oovelist's license of selectivity and investigation.

The first installment, a portion of the first volume, appeared in 1972 as "August 1914." According to Roger Straus of Fartar, Straus & Oiroux, U.S. publishers of the series, the full 1,000-page version of "Angust 1914," revised by the author and finally translat-ed to his liking, will appear in the United States next September.

English-language publication of the next volume ("October 1916," 1,200 pages) is at least a year and a half away, Strans says. The first half (1,500 pages) of the third volume, "March 1917," will

These have appeared in Rus-sian editions, as well as in French and German. Translation delays and the author's exacting standards are said to account for the substantial lag in English-lan-guage publication, although mea-

ger sales of the volumes in Europe contribute to the patience of Sol-zhenitsyn's U.S. publisher. Meanwhile, Solzhenitsyn is said

to be finishing "April 1917." "The Red Wheel," however, is not the author's exclusive preoc-cupation. With the help of his wife, his mother-in-law and his cons (the older two, Ermelin 16 sons (the older two, Ermolai, 16, and Ignat 15, altended nearby public schools but now are studying in England; the youngest, Ste-pan, 14, is still at home), Solzheni-tsyn has been amassing a vast

"I cannot go back before my books."

promising to publish the most sig-nificant of them as the "All-Russian Memoir Library." Hundreds of memoirs have been catalogued under the Solzhenitsyns' auspices. Together with a companion series on modern Russian history, the published materials have filled 16 volumes to date.

volumes to date. The Solzhenitsyns, in effect, are running a publishing house, with photocopiers, word processors, IBM typesetting machines and bookbinding equipment on the premises, operated chiefly by fam-ily members, (The finished books are issued by Solzhenitsyn's Rus-rianlangmage mublisher, YMCA sian-language publisher, YMCA Press in Paris.)

World War II and the Stalin era, expulsion work "very hard to read. It is endless. Sometimes it is impossible even to understand." In Russian emigre circles, the striking difference between Solzhenitsyn's work pre- and postexpulsion has spawned a cruel joke - "that the Communists kept Solzhenitsyn in prison," as one writer in exile tells it, "and

LANGUAGE In Search of the Old

Simon Michael Bessie, of Harper & Row, describes the first By Gary Jennings TN today's bookstores and librarvolume of "The Gulag Archipelago" as "a phenomenon. People certainly knew about the camps before the publication of 'Gulag' but 'Gulag' made it real and un-deniable. By the time we got to ies, you can get hold of just about any kind of dictionary, from the 12-volume-plus-supplements Oxford English to dictionaries of foreign languages and back-and-forth dictionaries (English-Swahili, volumes two and three, people felt Français-Esquiman, etc.) to dictio-naries of slang, of computerese, of dirty words and even of multilinthey knew what they had in know gual insults. The one kind of dictio-

accurate as to historical facts, mi-

deliberate effort to ignore a lot of

Sales figures bear this out: Harper & Row printed more than 3 million copies, hardcover and paperback combined, of the first paperback committed, or the first volume (1974); fewer than 900,000 of the second (1975); and 120,000 of the third (1978). Bessie calls this "an irony" because the third volume, he says, is "the most accessible of the three." The same wints he wild for "The Oak and might he said for "The Oak and the Calf," Solzhenitsyn's engaging antobiography, whose publication in 1980 went almost unnoticed. Whatever the fate of his re-forms in the Soviet Union, Gorbachev will he remembered for one. of the words he used to describe the spiril behind them — glassosi, variously translated as openness, publicity or disclosure.

aboul it."

Solzhenitsyn, however, used it long before. Eighteen years ago, when the Soviet writers mion exhero "crow" about anything good that happened to him; the barn-yard cock had not yet arrived from oelled Solzhenitsyn from its Ryazan local, the author wrote (and the Old World. circulated to Western news corre-But then it came to colors. Red. spondents) a blistering letter of protest blue, green - those words don't

"Glasnost, hones1 and comhave any extraneous and troubleplete," he wrote in its conclusion, "that is the prime condition for the health of every society, and ours too. . . The man who does not wan! glasnost for his fathersome connotations. The word "orange," however, was inspired by the fruit of that color, and the Aztecs had never seen one. (The word came into English from French, which got it from Italian, which got land does not want to cleanse it of il from Late Latin, and so on back, its diseases, but to drive them in-side, so they may rot there." ultimately to the Arabic, Persian and Sanskrit spoken in those lands His partisans are quick to cite where oranges first grew.) I was living then in a Mexican town teeming with painters, sculp-tors, enamelists, potters and Solzhenitsyn's prescient use of glasnost and even perestroika words he did ool invent, but whose current reformist implicaweavers of every nationality. So I went around to those who spoke English. Oranges first got to Britam about the year 1000, but of course tions he and other dissidents of the late 1960s helped define.

art even the most commonplace colors still have quaint old names (gules for red, sable for black, etc.). There I found what I was looking evidently not noble enough - but. when it was, it was called jocinth.
